MIXING AND DOSING SYSTEMS

IFA Technology is your competent partner for the ideal process - no matter if you want to mix liquids with liquids, solids with solids or liquids with solids or gases.

We develop a wide range of applications for the manufacture of your specific product.

OUR MIXING AND DOSING SYSTEMS FOR THE PROCESSING OF:

- ▷ GLUES, ADHESIVES AND RESINS
- ▷ PAINTS / VARNISHES / UV-VARNISHES
- ▷ INKS AND PRINTING INKS
- ▷ ADDITIVES OF ANY KIND
- ▷ FLAME RETARDANTS
- ▷ FUNGICIDES AND BIOCIDES
- ▷ LIGNIN RESIN AND VARIOUS POWDERS
- ▷ AND MUCH MORE

Depending on the application, our systems can be of explosion-proof (gas/dust) or acid-proof design. We consider your individual requirements and build customised agitators for you – for homogenising, emulsifying, aerating, grinding, suspending, dispersing or mixing and dissolving your solid and liquid substances.
